

## Ultraprobe 3000 Kits

It's easy to find the right Ultraprobe 3000 for your application

### **AVAILABLE KITS AND ORDERING INFORMATION**

#### **UP3000C: ULTRAPROBE 3000 STETHOSCOPE KIT**

Ultraprobe 3000 portable, digital ultrasonic inspection system includes compact pistol housing, illuminated display panel with digital decibel readout, multifunction sensitivity dial, on-board storage for up to 400 records with selectable storage modes (normal & fast) and universal USB output; includes stethoscope module for use with bearings, steam traps, valves (mechanical applications); extension rods to extend stethoscope module out to 31 inches; deluxe industrial noise isolating headset for hardhat use; rechargeable lithium battery; battery recharger; ultratrend DMS data transfer software; carrying case and instruction manual

#### **UP3000S: ULTRAPROBE 3000 SCANNER KIT**

Ultraprobe 3000 portable, digital ultrasonic inspection system includes compact pistol housing, illuminated display panel with digital decibel readout, multifunction sensitivity dial, on-board storage for up to 400 records with selectable storage modes (normal & fast) and universal USB output; includes scanning module for locating airborne ultrasound; rubber focusing probe for narrowing reception field & shielding ambient ultrasounds; deluxe industrial noise isolating headset for hardhat use; rechargeable lithium battery; battery recharger; ultratrend DMS data transfer software; carrying case and instruction manual

#### **UP3000SC: ULTRAPROBE 3000 STETHOSCOPE / SCANNER KIT**

Ultraprobe 3000 portable, digital ultrasonic inspection system includes compact pistol housing, illuminated display panel with digital decibel readout, multifunction sensitivity dial, on-board storage for up to 400 records with selectable storage modes (normal & fast) and universal USB output; includes stethoscope module for use with bearings, steam traps, valves (mechanical applications); extension rods to extend stethoscope module out to 31 inches; scanning module for locating airborne ultrasound; rubber focusing probe for narrowing reception field & shielding ambient ultrasounds; deluxe industrial noise isolating headset for hardhat use; rechargeable lithium battery; battery recharger; ultratrend DMS data transfer software; carrying case and instruction manual

#### **UP3000SL: ULTRAPROBE 3000 LONG RANGE SCANNER KIT**

Ultraprobe 3000 portable, digital ultrasonic inspection system includes compact pistol housing, illuminated display panel with digital decibel readout, multifunction sensitivity dial, on-board storage for up to 400 records with selectable storage modes (normal & fast) and universal USB output; includes scanning module for locating airborne ultrasound; rubber focusing probe for narrowing reception field & shielding ambient ultrasounds; long range module; deluxe industrial noise isolating headset for hardhat use; rechargeable lithium battery; battery recharger; ultratrend DMS data transfer software; pack of 200 leak tags; carrying case and instruction manual

### ***UP3000KT: ULTRAPROBE 3000 COMPLETE KIT***

Ultraprobe 3000 portable, digital ultrasonic inspection system includes compact pistol housing, illuminated display panel with digital decibel readout, multifunction sensitivity dial, on-board storage for up to 400 records with selectable storage modes (normal & fast) and universal USB output; includes scanning module for airborne leak detection; rubber focusing probe for narrowing reception field & shielding ambient ultrasounds; stethoscope module (contact type) for monitoring internally generated ultrasounds; extension probe kit to increase stethoscope contact range to 31 inches; warble tone generator; deluxe industrial noise isolating headset for hardhat use; rechargeable lithium battery; battery recharger; ultratrend DMS data transfer software; carrying case and instruction manual

### ***UP3000LRM: ULTRAPROBE 3000 KIT WITH LONG RANGE MODULE***

Ultraprobe 3000 portable, digital ultrasonic inspection system includes compact pistol housing, illuminated display panel with digital decibel readout, multifunction sensitivity dial, on-board storage for up to 400 records with selectable storage modes (normal & fast) and universal USB output; includes scanning module for locating airborne ultrasound; rubber focusing probe for narrowing reception field & shielding ambient ultrasounds; long range module for extended airborne detection; extension probe kit to increase stethoscope contact range to 31 inches; warble tone generator; rechargeable lithium battery; battery recharger; deluxe industrial noise isolating headset for hardhat use; ultratrend DMS data transfer software; carrying case and instruction manual
